Material Safety Data sheet

HMIS	
Health	3
Flammability	0
Reactivity	1
Personal Protection	Yes

I Chemical Identification		
NAME: Reliance Ammonia		CAS no. None Assigned
DESCRIPTION: Inorganic Nitrogen Compound and Water		
Other Designations	Manufacturer	Emergency Procedure
Aqua Ammonia	So-White Chemical Co., Inc. 1075 Plover Road Plover, WI. 54467	Call your local poison control center or For Transportation Emergencies CHEMTREC : 800 - 424 - 9300
II Health Hazard Data		III Hazardous Ingredients
<p>SYMPTOMS OF ACUTE OVEREXPOSURE. Ammonia is a severe irritant of the eyes, respiratory tract and skin. It may cause burning and tearing of the eyes, runny nose, coughing and chest pain. Exposure of the eyes to high concentrations may produce temporary blindness (cataracts and glaucoma) and severe eye damage. Exposure of the skin may cause burning and blistering of the skin.</p> <p>FIRST AID. External: Flood with water, then wash with vinegar. Internal: Drink large quantities of milk or water. Do not induce vomiting. Call physician immediately. Eyes: Wash repeatedly (10 to 15 minutes) with warm water. Call physician immediately. Inhalation: If effects occur, remove victim to fresh air. Call Physician.</p>		<p>Ammonia - CAS # 7664 - 41 - 7</p> <p>OSHA PEL Limit - 35 ppm * STEL</p> <p>Note: * Exposure limits Ammonia Gas given.</p>
IV Special Protection and Precaution		V Transportation and Regulatory Data
<p>Keep Out of Reach of Children.</p> <p>Avoid contact with eyes or clothing or prolonged contact with skin. Do not mix with bleach or toilet bowl cleaners. Do not use on aluminum. Use with adequate ventilation.</p>		<p>DOT Proper Shipping Name: Not Regulated</p> <p>DOT Hazard Class (if applicable): Not Applicable</p> <p>DOT Emergency Response Guide No 60</p>
VI Spill or Leak Procedures		VII Reactivity Data
<p>SPILLS: Dilute with copious amounts of water, ventilate area (open doors, windows, ventilation fans, etc.)</p> <p>WASTE DISPOSAL: Unless prohibited by state, local or Federal regulations waste may be disposed of by diluting with large quantities of water and washing into sewers.</p>		<p>Hazardous Polymerizations: Does not occur. Stability: Stable This material reacts with alkali metal, copper, bleaches and toiletbowl cleaners. Avoid contact with nonferrous Metals. Other Conditions to avoid: Heat</p>
VIII Fire and Explosion Data		IX Physical Data
<p>Flash Point: Non - flammable Extinguishing Agents: Water fog to control vapors.</p> <p>Wear full protection clothing and SCBA</p>		<p>Specific Gravity: (H₂O = 1) - 0.975 Solubility in water: - 100 % pH: 11.8 Appearance and Odor: Clear or slightly opaque with ammonia odor.</p>
