# MATERIAL SAFETY DATA SHEET

**Date Revised:** Jun 28, 2002  
**Date Issued:** Jan 10, 1996  
**MSDS No.:** F-00581

## 1. PRODUCT AND COMPANY IDENTIFICATION

**Product Name:** SF-880NT1/ST1/CT1/T1 (Black Toner)  
**Supplier Identification:** Sharp Corporation  
22-22 Nagaie-cho, Abeno-ku, Osaka, Japan  
Local suppliers are listed below. Please contact the nearest supplier for additional information.

3. HAZARDS IDENTIFICATION

This Preparation is not classified as dangerous according to Directive 1999/45/EC.

Most Important Hazards and Effects of the Products

Human Health Effects: There are no anticipated carcinogenic effects from exposure based on animal tests performed, using toner. When used as intended according to instructions, studies do not indicate any symptoms of fibrosis will occur.

Environmental Effects: No data are available.

Specific hazards: Dust explosion (like most finely divided organic powders)

4. FIRST-AID MEASURES

Route(s) of Entry: Inhalation? Yes Skin? No Ingestion? Possible but very unusual.

Inhalation: Remove to fresh air. If symptoms occur, consult medical personnel.

Skin Contact: Wash with soap and water for 15 minutes or until particle is removed. If irritation does occur, consult medical personnel.

Eye Contact: flush eyes immediately with water for 15 minutes. If irritation does occur, consult medical personnel.

Ingestion: Rinse with water and drink several glasses of water. If irritation or discomfort does occur, consult medical personnel.

5. FIRE -FIGHTING MEASURES

Extinguishing Media: water, CO₂, foam and dry chemicals

Special Fire fighting Procedures: None

Fire and Explosion Hazards: Toner material, like most finely divided organic powders, may form an explosive mixture.

6. ACCIDENTAL RELEASE MEASURES

Personal Precautions: None

Environmental Precautions: None

Methods for Cleaning Up: Wipe off with paper or cloth. Do not use vacuum cleaner when a large amount is released. It, like most finely divided organic powders, is capable of creating a dust explosion.

7. HANDLING AND STORAGE

Handling

Technical Measures: None

Precautions: None

Safe Handling Advice: Use of a dust mask is recommended when handling a large quantity of toner or during long term exposure, as with any non-toxic dust. Try not to disperse the particles.

Storage

Technical Measures: None

Storage Conditions: Keep container closed and Store in a cool and dry place.
8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Engineering Measures
- Ventilation: Not required under intended use.
- Exposure limit values:
  - OSHA-PEL(USA): 15mg/m³ (Total Dust), 5mg/m³ (Respirable Dust)
  - ACGIH-TLV(USA): 10mg/m³ (Total Dust), 3mg/m³ (Respirable Dust)
- Personal Protective Equipment:
  - Respiratory Protection: Not required under intended use.
  - Hand Protection: Not required under intended use.
  - Eye Protection: Not required under intended use.
  - Skin Protection: Not required under intended use.
  - Other Protective equipment: Use of a dust mask and goggles are recommended when handling a large quantity of toner or during long term exposure, as with any non-toxic dust.

9. PHYSICAL AND CHEMICAL PROPERTIES

- Ph: Not applicable
- Boiling/Melting Point: Not applicable
- Softening Point(°C): 130-150
- Flash Point(°C): Not applicable
- Ignition Point(°C): No data
- Explosion Properties: No data
- Density(g/cm³): No data
- Solubility in water: Negligible

10. STABILITY AND REACTIVITY

- Stability: Stable
- Hazardous Reactions: Dust explosion, like most finely divided organic powders.
- Conditions to avoid: Electric discharge, throwing into fire.
- Materials to avoid: Oxidizing Materials
- Hazardous Decomposition Products: CO, CO₂ and NOₓ
- Further Information: None

11. TOXICOLOGICAL INFORMATION

Acute Toxicity
Ingestion (oral)  :  LD₃₀ > 2000 mg/kg (Rats)
Dermal          :  No data
Inhalation      :  No data
Eye irritation  :  Not an irritant (Rabbits)
Skin irritation :  Not an irritant (Rabbits)
Skin sensitiser:  No sensitization
Mutagenicity    :  Negative (Ames Test)
Carcinogenicity :  In 1996 the IARC reevaluated carbon black as a Group 2B carcinogen (possible human carcinogen). This classification is given to chemicals for which there is inadequate human evidence, but sufficient animal evidence on which to base an opinion of carcinogenicity. The classification is based upon the development of lung tumors in rats receiving chronic inhalation exposures to free carbon black at levels that induce particle overload of the lung. Studies performed in animal models other than rats did not show any association between carbon black and lung tumors. Moreover, a two-year cancer bioassay using a typical toner preparation containing carbon black demonstrated no association between toner exposure and tumor development in rats.

Chronic Effect  :  In a study in rats of chronic inhalation exposure to a typical toner, a mild to moderate degree of lung fibrosis was observed in 92% of the rats in the high concentration (16 mg/m³) exposure group, and a minimal to mild degree of fibrosis was noted in 22% of the animals in the middle (4 mg/m³) exposure group, but no pulmonary change was reported in the lowest (1 mg/m³) exposure group, the most relevant level to potential human exposures.

12. ECOLOGICAL INFORMATION

No data are available.

13. DISPOSAL CONSIDERATIONS

Waste from residues  :  Waste material may be dumped or incinerated under conditions that meet all federal, state, and local environmental regulations.
Contaminated Packaging :  Waste may be disposed or incinerated under conditions that meet all federal, state, and local environmental regulations.

14. TRANSPORT INFORMATION

UN Classification  :  None
Not classified as hazardous for transport.

15. REGULATORY INFORMATION

US Information
TSCA (Toxic Substances Control Act) :  All chemical substances in this product comply with all applicable rules or order under TSCA.
SARA (Superfund Amendments and Reauthorization Act) Title III
302 Extreme Hazardous Substance  :  None
311/312 Hazard Classification  :  None
EU Information
16. OTHER INFORMATION

NFPA Rating □ USA □
Health = 1  Flammability = 1  Reactivity = 0

WHMIS Legislation (Canada)
This product is not a controlled product.

List of R phrases
□ 20 □ Harmful by inhalation
□ 51 □ Toxic to aquatic organisms
□ 53 □ May cause long-term adverse effects in the aquatic environment

References

The information on this data sheet represents our current data and best opinion as to the proper use in handling of this product under normal conditions. However, all materials may present unknown hazards and should be used with caution. Although certain hazards are described herein, we do not guarantee that these are the only hazards that exist.
