Treat phone interviews like in-person interviews. Wear interview attire, use good posture, and prepare. The employer can sense your confidence over the phone.

- Find a private and quiet place without background noise (no people, tv or music.)
- Before the interview, test your phone's connection from this space to ensure a clear conversation.
- Be prepared: have notes and your resume in front of you.
- Speak clearly and confidently with an even pace.
  - Speak directly into the phone, and do not use speakerphone.
- Smile when talking; the interviewer will hear it in your voice.
- Take notes to reference during and after the interview.

# Virtual or Video Interviews

**Virtual interviews:** real-time video conversations with an employer through a computer or phone.

**Video interviews:** you record answers to questions & the employer watches the video later.

- Use online tools to practice for your virtual and video interviews
  - [InterviewStream](#): free access with your UWW email
    - Select interview questions, record and review your responses, and request staff feedback
- Consider your surroundings

  - Choose a background that is clean and simple
- Dress professionally
- Smile and be aware of your body language and posture
- Look at the camera; not at your face on the screen

After graduating, it's important to determine how much you owe and to whom.

## Federal Loans

View your total Federal Loan indebtedness, repayment options and loan servicer information at [studentaid.gov](https://studentaid.gov)

- Your loan servicer is the organization to whom you need to make payments
- Always be in contact with your loan servicer; they are there to help you!
- Trouble making payments? Contact your servicer for options to reduce or temporarily suspend payments

## Private Loans

If you borrowed additional loans from a private bank or credit union, contact that financial institution directly to learn about total indebtedness and repayment options

# How COVID-19 Has Impacted Repayment

To provide relief to student loan borrowers during the COVID-19 national emergency, federal student loan borrowers are automatically being placed in an administrative forbearance, which allows you to temporarily stop making your monthly loan payment.

This suspension of payments will last until Sept. 30, 2021, but you can still make payments if you choose.
