

UW-Whitewater Office of Recreation Sports & Facilities Mask Policy for Participation in Programs & Services

Masks are required at all times when indoors participating in intramurals, club sports, group fitness classes, and open recreation whether in the fieldhouse or weight room. A mask can be pulled down when actively drinking and eating.

NCAA athletes, if participating in recreation sports indoors, they also must wear a face mask.

If participants are not compliant, people may be asked to leave, games may be forfeited, and/or the names and rosters will be sent to the Dean of Students Office.

While there may be perceived inconsistencies with policies and enforcements, we kindly ask our members and all building users to understand the Williams Center is a shared space with multiple user groups who may have policies specific to their group constituency. Questions or concerns about policy equity, consistency and enforcement may be directed to program directors and/or University Police. Please ask for clarifications before making judgment.

We also kindly ask all individuals to treat our staff with respect when approached about policy compliance. We cannot offer our wide array of programs and services with their commitment to your experiences and they are simply following instructions put in-place by UW System and UW-Whitewater leadership.

THANK YOU
