

## **UW-Whitewater Intramural Sports**

### **Student Organization Involvement – Campus Cup**

#### **Overview and Rules**

Is your campus organization looking for something to do that creates long-lasting memories, promotes healthy physical activity, increase team bonding and is fun at the same time? Look no further than Intramural Sports!

Consider registering your organization in the FREE “Campus Cup!”

The campus cup is a year-long event where organizations can register for activities offered through Intramural Sports, compete against other organizations and collect points along the way based on involvement and performance.

This competition is open to all recognized student organizations, fraternities, sororities and residence halls.

#### **How it Works**

- Register your organization or floor by using your organization or Res. Hall floor name (make sure you use the same team name all year long or it will be hard to track points). Register as you would for any other activity; there are no special/added instructions
- Your team may be registered in any activity, any day, any time in a Men’s, Women’s, Co-Rec and/or Open league and may have one team in every league offered within a given activity
- There is no “Campus Cup-specific league,” so you can register to play whenever your team is available!
- Teams can be registered in multiple activities at a time; teams must choose between activities or add to their rosters in the event teams are double-scheduled
- Only members within the organization or residents on a specific/registered floor are permitted to participate. Since not all organizations represent all genders, organizations and floors may have coinciding organizations to help fill rosters. Coinciding organizations will also score points by participating with another organization
- Accumulate points throughout the year. Points are tallied by Intramural Sports staff and are not subject to protest, although point standings and inquiries may be requested at any time
- The winning organizations will receive a prize packages from Intramural Sports (examples include extra t-shirts, free team entries, pizza parties, a traveling trophy or plaque, etc. – these are examples and final prizes will be awarded at the discretion of administrative staff). Other incentives for teams frequently participating may be distributed at the discretion of staff as well!

#### **Points Will be Awarded For**

- 10 Points for each team activity registration (up to 20 points per activity)
- 5 points for each doubles activity registration (up to 10 points per activity)
- 3 points for each singles activity registration (up to 6 points per activity)
