Welcome, Warhawks!

We're so excited to have you here.

This monthly newsletter is sent out to our students each month to provide helpful information about our office, reminders about advising, and important dates that are approaching. If you have any questions before meeting with your assigned advisor, please let us know!

While this may not be what you expected your first experience on a college campus to look like, we are still so happy to see so many new Warhawks here to start new traditions!

Role of an Advisor

Have a question, but unsure who to ask? Your advisor is the perfect start! Advisors can help with a variety of things such as:

- Selection of Courses
- Transition to Campus Life
- Interpretation of UW-W Policies and Procedures
- Achieving your Academic, Career, and Personal Goals
- Supporting you!

The First Steps

Did you know that the average college student changes their major 1-4 times during their college career? It's completely normal to come to college and be unsure about your future plans, but we're here to help! Below are the first steps to take if you're undeclared or considering other major options:

- Review the list of [UWW programs and majors](#)
- Check out the [AAEC Major Exploration Tab](#); there are links, forms, and assessments to help you get started!
- Review the AAEC's [Exploration Action Plan](#) and discuss it with your advisor

EXPLORATION TIP OF THE MONTH

Have you heard of the app, Navigate? [Navigate](#) was designed to enhance academic advising, mentoring, and coordinated student support. This app will help you experience all that UW-W has to offer! Navigate is comprised of many areas, but two that you may find most useful are the My Major Activity and Study Buddies!

To download the app, visit the App Store or Google Play and search for "Navigate Student."
