

Information Security Shared User Accounts Practice Directive

Division: Academic Affairs
Department: Instructional, Communication & Information Technology (ICIT)
Contact Information: CIO / Elena Pokot / (262) 472-7790 / pokote@uww.edu
Effective Date: 11/02/2020
Revised Date: 11/02/2022

Authority:

UW System: [UW System Administrative Policy 1030: Information Security: Authentication](#) , [UW System Administrative Procedure 1030.A: Information Security: Authentication](#)

Regent: [Regent Policy 25-5: Information Technology: Information Security](#)

State: [State Statute Subchapter 8: Information Technology](#)

Federal: [U.S. Department of Commerce: Security and Privacy Controls for Federal Information Systems and Organizations](#)

Objective:

The University of Wisconsin-Whitewater is committed to providing a secure information technology (IT) environment in support of the mission of the university. This Practice Directive is intended to ensure compliance with UW System Policies, Regent Policies, State Statutes, and Federal Statutes regarding information security account management.

Statement:

This Practice Directive and its corresponding Procedure highlight the importance of proper account management, specifically concerning how to request and manage a shared user account. These guidelines include the additional controls needed to manage these accounts, and annual confirmation that the account is still required to fulfill a business need, to reduce risk and safeguard access to information associated with the accounts.

Procedures:
