**PURPOSE:**

To provide employees and supervisors with a standard set of criteria on which to base concerns, improvements and performance.

**POLICY:**

The University of Wisconsin-Whitewater Police Services Evaluation Program is designed to translate Department objectives into individual responsibilities, and to facilitate a mutual understanding between the employee and supervisor regarding expected levels of job performance, based upon reasonable standards.

The Evaluation Program provides all employees with a uniform process for annual appraisals of their performance. The process will achieve the following objectives:

- Rate the employee on general and assignment specific characteristics,
- Identify training needs,
- Give each employee a performance appraisal by his or her immediate supervisor,
- Establish work performance objectives to be achieved in the upcoming evaluation period,
- Establish a specific plan for improving performance where it is judged to be below standard.

**PROCEDURE:**

The appropriate Employee Evaluation Form will be utilized.

Each annual evaluation period will run from January 1 to December 31. The supervisor will rate the employee based on his/her performance during the evaluation period, with the exception of probationary employees who may receive evaluations at 2 months, 5 months and 1 year marks.

The supervisor will request a self-evaluation be done by the employee prior to the completion of the annual evaluation.

The supervisor will submit his/her completed annual evaluation to his/her superior for review. This review is to be done prior to the performance evaluation conference and is meant to ensure that a fair and justifiable rating has been given.

A formal performance evaluation conference will be held between the rating supervisor and the rated employee. The purpose of the conference is to discuss the information documented on the evaluation forms, including work performance objectives for the upcoming rating period. The conference should be an open and free forum for the exchange of ideas from both participants in an attempt to reach mutual understanding of organizational and individual goals, as well as an assessment of the employee's work toward those goals.

All ratings of Above or Below Standards require a written explanation. Additionally, ratings of below standard require an outline for a plan on how the employee may improve performance in the category in question.

**The following definitions will be utilized to determine which category best describes the employee's performance during the evaluation period:**

- Not Observed:** The employee's performance was not evaluated within this section or category. This is NOT a negative reflection on the employee or supervisor.
- Below Standard:** Employee demonstrates that they fail to meet the generally accepted criteria for an evaluation category. Occasional mistakes are made. The employee fails to recognize mistakes and requires motivation to make necessary corrections.
- Meets Standard:** This is the first level of acceptable performance. The employee meets all criteria for a given evaluation category. Mistakes at this level of performance are rare. When mistakes do occur they are immediately corrected and steps are taken to ensure they do not recur.
- Above Standard:** The employee's performance exceeds the generally acceptable level of performance a majority of the time. The employee demonstrates the ability to function with a minimum of direct supervision.
