This scholarship is made possible by the late Ethel Upham, daughter of A.A. Upham, a former science teacher at the University. Her desire was that this scholarship would be used to encourage outstanding students to continue their studies at UW-Whitewater in Biology, Chemistry, or Physics. When selecting the top candidate, the scholarship committee considers each candidate's academic record, professional goals, and relevant work experience. The A.A. Upham Scholarship usually includes a certificate and up to \$400 to help defray the cost of courses taken the following semester.

**Please write a brief statement explaining your future goals and aspirations.**
