B. Announcements

-At the last UCC meeting, it was announced that proposers who are making revisions to cross-listed courses will need to submit two proposals – one for the “main” course and another for the cross-listed version. The explanation provided was that CourseLeaf treats the cross-listing as a separate course. During discussion, Ellen Davis questioned whether that is true since she was recently unable to edit the course form for BIOLOGY 220, which is the cross-listing for PUBHLTH 220. Liz Hachten shared that the CoLS is not going to duplicate proposals at this time; she and Angela Harlan will be meeting with the Registrar’s office to discuss this situation.

-Everyone is reminded that 29X course numbers should not be used for regular course numbers since that 29X numbers are now used for the lower-division versions of the 49X courses.
