

# PEDIATRIC SPEECH AND LANGUAGE SERVICES

800 WEST MAIN STREET, ROSEMAN BUILDING, WHITEWATER, WI 53190

## DIAGNOSTIC SERVICES

Clients are eligible to receive a comprehensive assessment of their oral and written communication skills as part of their semester's programming. The results are utilized as one source of information to drive intervention planning.

## HEARING SCREENINGS

In collaboration with certified speech-language pathologists and/or audiologists, graduate students conduct hearing screenings for children enrolled in public and private schools throughout southeastern Wisconsin.

Clients ranging in age from approximately **18 months to 18 years** can receive therapy addressing the following:

- Speech sound disorders
- Phonology
- Oral and written language
- Fluency
- Social skills
- Executive functioning,
- Augmentative and alternative communication (AAC)

We also provide **preventative and/or strategy based intervention** for children and adolescents who are at risk of developing, or already have, academic difficulties in relation to their communication deficits.

## INDIVIDUAL AND/OR GROUP SESSIONS

Individual and group treatment sessions for speech, language, and literacy therapy are scheduled throughout the week within the academic year (fall and spring semesters) based on client/clinician/supervisor/room availability.
