**Note:** Headcount consists of both students who started their academic careers as full-time first-time students on the UW-Whitewater Main Campus as well as students who transferred to UW-Whitewater before entering the program. Students are only admitted into the ECE and ECE4U program at the end of their third semester on campus. This means, for example, that a student in the Spring 2014 ECE cohort is likely to have started her/his academic career at UW-Whitewater in the Fall 2012 semester.

Students who began their academic careers at UW-Whitewater during the summer or winterim semesters are not included in either the fall or spring cohorts. This accounts for the majority of students in the ECE4U program.
