I. **Detailed explanation of changes** (use FROM/TO format)

**FROM:**

Principles and methods concerning study of the individual in terms of human development, learning and adjustment as these relate to counseling functions. Exploration of mental health concerns common to health care agencies. Emphasis will be on critical analysis of the literature and procedures in conducting case studies.

Prereq: COUNSED 718 or consent of instructor.

**TO:**

Students will examine the diagnostic criteria of the Diagnostic and Statistical Manual of Mental Disorders (APA). Diagnostic skills of counseling students will be enhanced. Students will examine the benefits and concerns of diagnosis within the counseling relationship and explore relevant treatment modalities (individual, group, and family). Students will develop an understanding of the interplay between biology and environment and the impact on human development, learning and adjustment.

Coreq: COUNSED 718

II. **Justification for action**

Changes have been made to clarify the focus of the course and to update the language to more accurately represent the present terminology in the counseling field.
