Notes on filling out the template:

- Degrees are expressed as the number conferred in the year indicated by each column. Increases in degrees are expected to lag increased enrollments, retention rates, and/or graduation rates.
- Fall Other Undergraduates includes continuing students and students entering as other than new freshmen or transfers.
- Success rates apply to the full-time new freshmen and transfers who enter in the fall of the year indicated by the column and are retained at or graduated from your institution. **The exception is the 2008-09 column, which shows the most recent available rates: the fall 2008 cohort, the retention rate for the fall 2008 cohort, the 4-year graduation rate for the fall 2005 cohort, and the 6-year graduation rate for the fall 2003 cohort.**
- Underrepresented Minority (URM) students include students indicating African American, American Indian, Southeast Asian, or Hispanic/Latino race/ethnicity (excludes: Other Asian American, Hawaiian/Pacific Islander, and those identifying as two or more races). Retention and graduation rates in the 2008-09 column are based on three years of data to compensate for variability and small size of this population at some institutions.
- Pell recipients are reported on an annual unduplicated basis. The year is defined as "leading" summer, fall, winter, and spring.
