

Workstation Management Meeting – 2/25/19

All:

- macOS Mojave
 - Live for new equipment / reimages.
 - In place upgrade for High Sierra devices coming later in the winter.
- Lab/Class Software Lists – Fall 2019
 - Working on these to release in early march.
- Screen Lock
 - In place on Office Macs and PCs
- Citrix
 - Additional Apps
 - -Adobe: Will depend how new, shared device software builds work.
- Labmod – Where possible we will be ordering equipment as soon as possible with deferred warranties until the summer.
 - Open Items:
 - MG127 – Demos being built.
 - WH3002 – New devices will need to be imaged – Need vendor engagement.
- 10.10 Macs will be targeted next for upgrade – Updates?
 - Sent Lists
- Adobe:
 - Initial synchronization to give fac/staff federated access to the All Apps plan is in place. I am working on documentation and then we will announce to users.
 - Adobe shared Device Licensing – Waiting on release date from Adobe.
 - We will start deploying the new 2019 versions for Fall Semester 2019.

CA:

- 10.10 Macs – Sent List
- Student Worker – In discussions with CoAC leadership
- Renderman Computers – Looking at it
- Physical Inventory – Eileen stated would be done by the end of January

CLS:

- 10.10. Macs – Sent List
- Chemistry Software – Apparently Not Ordered...
- Biology Workstation – Matt getting clarification on hard drives
- Possible to update Citrix Installer from gateway.uww.edu?

CoBE:

- 10.11 Macs – Sent List

CoEPS:

- 10.10 Sent List
- Met to review iPad configuration – Working on apps and folders.
 - Serial Numbers of existing devices?
- ROTC Computers that need to be replaced – Jon to check if they are rooms in 25-Live and eligible for labmod

Housing:

- 10.10 Macs – Only 1 – 305651-OM... Still valid?
- Query hawkcard HID numbers via door system? Not currently stored in Blackboard, so I cannot pull from there.
- Nick has been working with Citrix on some changes to Xenmobile, once turned back over to me, we can complete the configuration.
