Workstation Management Meeting – 11/12/18

All:

- New Computer Models
  - PCs – New Laptops, and Desktops added to catalog
    - HP Discontinued the EliteBook 820, it has been replaced with the 830 which has a 13.3" Display
    - ProBook 640 – No longer offers an optical drive. Do we still want to use the Probook 640, or go with the eliteBook 840 which has a 14" Display (Between the 830 and 850).
  - New Mac Models
    - Apple added several new models. Holding off until software is tested for Mojave as these will ship with Mojave.
- Spring Software – I'm behind on these, but am working on getting them sent this week.
  - We will be starting to look at VPAT compliance per Administrative Affairs directive.
    - A governance group is reviewing the policy and I will have more details as to what the process looks like if something is not compliant. To get a head of the curve though we will at least collect the compliance status for now.
- Citrix
  - Currently Upgrading Virtual Apps. Any other requests for software?
    - -CoBE: SPSS Modeler 24
    - -CLS: R, R studio, Mathematica
    - -Housing: Google Chrome
    - -Adobe: Engaged Citrix on Adobe applications and working to see what we can do to get those functional in our environment
- 10.10 Macs will be targeted next for upgrade – Updates?
  - Next release of Cisco Jabber does not support 10.10, which causes issues for a campus wide push.
  - ~70
- Adobe:
  - Initial synchronization to give fac/staff federated access to the All Apps plan is in place. I am working on documentation and then we will announce to users. – On hold, pending IDM issues not syncing all fac/staff. T3 IDM looking into.
    - Labs/Classrooms will still have serialized licenses
    - Office computers will have the option for serialized licenses (might go away in new ETLA Next fall), or named user
      - Be careful if it is an office computer, which students use, you will need the serialized license in this case.

- If a user logs into a serialized install it can wipe out the serialized license. There is the "Adobe Creative Cloud – Enterprise License (Expires 11-19)" available to re-serialize the license.
    - Adobe has committed to a new student-licensing model, which is to work with named-user only applications like XD, Dimension and Captivate 2017.

CA:

- 10.10 Macs – Updates?
- Booth Computers
    - Working on quotes for QLab and Dante
- Student Worker – Likely will be for Spring semester – were doing our best to cover what John F was working on.

CLS:

- 10.10 Macs – Updates?

CoBE:

- 10.11 Macs – List sent to Joe
- Ticket for ICIT Tools access is with T3 Identity management – I've escalated to ICIT Management for resolution

CoEPS:

- 10.10 Macs
- Met to review iPad configuration – Working on apps and folders.
- MacBook Pro's this week - wifi exceptions
- Chromebook quote this week.

Housing:

- 10.10 Macs
- Query hawkcard HID numbers via door system? Not currently stored in Blackboard, so I cannot pull from there.
