 - -CoBE: SPSS Modeler 24
 - -CLS: R, R studio, Mathematica
 - Housing: Google Chrome
 - -Adobe: Engaged Citrix on Adobe applications and working to see what we can do to get those functional in our environment
- 10.10 Macs will be targeted next for upgrade – Updates?
 - Next release of Cisco Jabber does not support 10.10 which causes issues for a campus wide push.
 - ~80
- High Sierra
 - Began new DEP provisioning process
 - A few bumps, but I'll continue working with areas who image to refine the process.
- Helpdesk
 - Michael Schneck is no longer with the university. ICIT Management team is investigating alternative options.
- Papercut Migration for fac/staff
 - Looking for areas interested in looking at the Papercut options to formulate a plan to migrate devices. – No Updates
- Adobe:
 - Initial synchronization to give fac/staff federated access to the All Apps plan is in place. I am working on documentation and then we will announce to users. – On hold, pending IDM issues not syncing all fac/staff. T3 IDM looking into.
 - Labs/Classrooms will still have serialized licenses
 - Office computers will have the option for serialized licenses (might go away in new ETLA Next fall), or named user

- Be careful if it is an office computer, which students use, you will need the serialized license in this case.
 - If a user logs into a serialized install it can wipe out the serialized license. There is the “Adobe Creative Cloud – Enterprise License (Expires 11-19)” available to re-serialize the license.
 - Adobe has committed to a new student-licensing model which is to work with named-user only applications like XD, Dimension and Captivate 2017.
- Restructuring:
 - After submitting our proposals for restructuring colleges has decided they will be handling everything related to the transition?
 - UW-Colleges still supporting and purchasing existing UW-Rock fac/staff equipment
 - UW-Whitewater is taking part in various IT restructuring functional groups with other campuses.
