Jessie M. Littlejohn.	Grace Trippe.
Laura McCall.	Jennie White.
Sarah McNamara.	

GENERAL INFORMATION.

LOCATION.

This school is located at Whitewater, Walworth Co., a village containing from three to four thousand inhabitants, and situated on the line of the Milwaukee and Prairie du Chien Railway. It is only a few miles from the junction of the Chicago and Northwestern with the Milwaukee and Prairie du Chien road, and about one hundred miles northwest of Chicago. It is thus easy of access, and located in the most densely populated portion of Wisconsin.

The ground on which the Normal School building stands is found, by recent surveys, to be the highest point between Lake Michigan and the Mississippi, and the wide extent of rolling prairie, oak openings and small lakes which it overlooks renders its position one of great beauty.

BUILDING AND GROUNDS.

The edifice is new, built of cream colored brick, and is of the modern style of architecture. It is one hundred and eight feet long, by fifty-seven wide, and three stories high above the basement. The whole building is heated by steam, thoroughly ventilated, and no necessary labor or expense has been spared to adapt it to the purposes for which it has been designed.

The grounds embrace an area of ten acres, which have been handsomely graded and ornamented with walks, lawns, evergreens, shrubs and flowers, the whole designed to illustrate to the students the necessary surroundings of the school house,—to cultivate the æsthetic, as well as the reasoning powers, and to awaken in the students a love of nature which shall find practical expression wherever they may be called to labor.

TERMS OF ADMISSION.

The Board of Regents of Normal Schools has adopted the following regulations for the admission of students to any State Normal School:

Board of Regents

OF NORMAL SCHOOLS.

1871.

HIS EXCELLENCY, GOV. LUCIUS FAIRCHILD, EX OFFICIO,
MADISON.

Circular.

LOCATION.

This school is located at Whitewater, Walworth Co., a village containing from three or four thousand inhabitants, and situated on the line of the Milwaukee and Prairie du Chien Railway. It is only a few miles from the junction of the Chicago and Northwestern with the Milwaukee and Prairie du Chien road, and about one hundred miles northwest of Chicago. It is thus easy of access, and located in the most densely populated portion of Wisconsin.

The ground on which the Normal School building stands is found, by recent survey, to be the highest point between Lake Michigan and the Mississippi, and the wide extent of rolling prairie, oak openings and small lakes which it overlooks renders its position one of great beauty.

BUILDING AND GROUNDS.

The edifice is new, built of cream colored brick, and is of the modern style of architecture. It is one hundred and eight feet long by fifty-seven wide, and three stories high above the basement. The whole building is heated by steam, thoroughly ventilated, and no necessary labor or expense has been spared to adapt it to the purposes for which it has been designed.

The grounds embrace an area of ten acres, which have been handsomely graded and ornamented with walks, lawns, evergreens, shrubs and flowers, the whole designed to illustrate to the students the necessary surroundings of the school house,—to cultivate the aesthetic, as well as reasoning powers, and to awaken in the students a love of nature which shall find practical expression wherever they may be called to labor.

TERMS OF ADMISSION.

The Board of Regents of Normal Schools has adopted the following regulations for the admission of students to any State Normal School:

1. Each Assembly district in the State shall be entitled to six representatives in the Normal Schools, and in case vacancies exist in the representation to which any Assembly district is entitled, such vacancies may be filled by the President and Secretary of the Board of Regents.

2. Candidates for admission shall be nominated by the County Superintendent of the County (or if the County Superintendent has not jurisdiction, then the nomination shall be made by the City Superintendent of

Board of Regents

brought the cost within two dollars per week. Pupils have also been able to reduce expenses by forming small clubs.

Instruction in Vocal Music is free, being a part of the regular work. Lessons on the Piano, \$12.00.

PROMPT ATTENDANCE.

It is desirable that the pupils should reach Whitewater one or two days before the opening of the School. This will give them sufficient time to secure suitable places for boarding, and to prepare themselves to enter promptly upon the discharge of their duties as students. On arriving, pupils will report themselves at the President's office in the school building, where all necessary assistance will be rendered them by the faculty. They will retain their checks until after boarding places have been secured, when their baggage will be delivered. Examination for classification will commence at nine o'clock on the first morning of the term.

GRADUATES' CALENDAR.

CLASS OF 1870.

Samuel R. Alden,	Student,	Leipsic, Germany.
George M. Bowen,	Principal Pub. Schools,	Columbus.
