

# September Letter from Andersen & Lenox Libraries

September 2022

<https://uww.edu/library/>

University of Wisconsin - Whitewater

## More Kanopy Streaming Films

If you've been enjoying [Kanopy's](#) award-winning films and thought-provoking documentaries, you'll appreciate the new *Kanopy* subscription collection. The new service gives our campus full access to nearly 10,000 films, in addition to the film-by-film licensing we will continue to offer.

*Kanopy* also offers the latest festival hits, classic films, and TV series to our users—and the topics support a wide variety of disciplines.

If a film shows an orange "Request Access" button when hovering over it, it's not part of the subscription, so you can fill out the request form under the film.

## ACM Digital Library is Back!

[ACM Digital Library](#) is back. The Association of Computing Machinery's database of scholarly articles and conference proceedings supports the cybersecurity program and computer science as well as many other STEM fields. The College of Business & Economics funds this important product and we appreciate their support.

## Check Your Films & Ebooks

[Ebook Central](#) (ProQuest) and [Films on Demand](#) add new titles regularly. But they also remove titles twice a year. So if you assign titles from these products to your students, please check the links to make sure they still get to the book or film. The [Eresources Removal](#) page will list all the expiring titles.

Most of [Kanopy's](#) (individually licensed) films also expire after a year. So use [Research@UWW](#) to check *Kanopy* subscription dates. The new *Kanopy* subscription titles will not expire.

## Welcome New Library Staff

Melanie Jones joins the Library as the Archives & First Year Experience Librarian. She earned her B.A. in History and American Studies from St. Olaf College and M.L.I.S. from UW-Madison. Before coming to Andersen Library, she worked as the Engagement and Reference Librarian at Lakeland University for three years.

Melanie enjoys playing board games with friends and evening walks with her dog. She is looking forward to getting to know the UWW community and helping students access the information and resources they need to succeed!

## The Magic of LibKey

What if your browser were smart enough to determine whether any article you find on the web is accessible to you?

What if all *PubMed* and *Wikipedia* article references had links to every article that UWW users can access in full-text? The *LibKey Nomad* browser extension can do that!

The Library's new suite of article linking (*LibKey*) and journal browsing (*Browzine*) software will transform the way UWW users access journal content! The Library has just licensed this powerful software for three years.

Intrigued? Read more about *LibKey* and *Browzine* on the [Andersen Library Blog](#) or see the [Libkey/Browzine Library Guide](#).
