The Qualified Treatment Trainee (QTT) Grants Program is intended to increase the number of placements available to post-graduate QTTs within the state of Wisconsin. Program goals include increasing agency capacity to hire and supervise QTTs, providing agency resources on best practices in supervision, and investing in ongoing supervision development. The QTT Grants Program includes professional development opportunities designed to allow all QTT supervisors, regardless of experience level, the chance to improve, review, and refresh their supervisory professional development.
