

Using the Planner in Stellic

Overview

The Plan your Path tab in Stellic displays your remaining degree requirements and helps you organize classes into terms. The system alerts you about missing prerequisites and suggests classes based on your interests.

The screenshot displays the Stellic Planner interface. On the left is a dark sidebar with navigation links: Home, Track Progress, Plan your Path (highlighted with a red arrow), Schedule Fall term 2025, Explore (with sub-links for Courses, Pathways, and Programs), and Quick Links (UWW Navigate for students, UWW Navigate for staff, Report a Problem). The main content area has a light background. At the top is a 'Registration Open' banner with a 'Plan and Register' button. Below this is a 'Quick Access' section with three cards: 'Track' (Graduation Requirements, Enrolled: Business Undecided Non-Degree Program, Remaining: 22 courses, 58 credits), 'Plan' (Your Pathway, Planned: 2 Courses (Fall Term 2025), 22 more courses to plan), and 'Schedule' (Your Courses, Scheduled for Fall Term 2025: 2 courses - 2 sections, No activities, Registration Opens: Fall Term 2025: Sat 19 Apr 2025, 12:01 am CDT - Tue 18 Nov 2025, 11:59 pm CST). Below the Quick Access cards is a 'Fall Term 2025' section showing course listings: CORE 120 HISTORICAL PERSPECTIVES (University Requirements (32 credits), 3 credits, Enrolled) and MANGEMNT 301 ORGANIZATIONAL BEHAVIOR (3 credits, Enrolled). To the right of the course listings is a 'Coming Up' section with dates: Sep 30 (2026 Spring Term schedule released), Dec 12 (2025 Fall Term ends).

The Right Sidebar

The right sidebar offers several ways to view your requirements and plan:

- **Remaining:** Lists unfulfilled required courses and placeholders, saved courses, and activities
- **Progress:** Displays completed, planned, and unfulfilled program requirements
- **Search Courses:** Search for specific course codes or filter eligible courses by dozens of criteria

Remaining Tab

- **Remaining Requirements:** Lists only unfulfilled program requirements
- **Courses:** Save courses for future reference (potential electives or courses of interest)

Progress Tab

- Shows all requirements for your added programs (official or unofficial)
- Toggle between views using the arrow icons:
 - **Compact View:** Provides requirement overview
 - **Expanded View:** Shows complete audit details

Search Courses Tab

- Search for courses with filters for requirements, terms, instructors, and more

Adding Courses to Your Plan From the Remaining Tab

1. Navigate to the Remaining tab in the right sidebar
2. Find a course in Remaining Requirements
3. Drag and drop the course to your desired term
4. Check for any error messages about prerequisites or term availability

From the Progress Tab

1. Open the Progress tab in the right sidebar
2. Find available courses (those with empty red boxes)
3. Drag and drop courses into your desired term
4. Alternatively, drag requirements to create placeholders for requirements with multiple course options
5. Click on placeholders (shown with dotted lines) to see possible courses for that requirement

Using Course Search

1. Click **Search Courses** button
2. Enter keywords for your search
3. Apply filters as desired
4. Select **Only with cleared prerequisites** checkbox to see only courses for which you meet requirements
5. Sort results by Course Code or Title
6. Toggle between List and Grid view to see additional information:
 - Likely offered terms
 - Number of available sections
 - Campus
 - Instructors
 - Modality
7. Either:
 - Drag and drop courses directly from search results into your plan, or
 - Click on a course to view details, then click **Add to Plan**
