

Dear Members of the Warhawk Community,

We struggle to find the words to express the sadness and anger we feel at the senseless deaths of George Floyd, Ahmaud Arbery, and Breonna Taylor and the many, many others that have lost their lives as victims of violence, and racism. UHCS has a strong commitment to serving the diverse UW-Whitewater community and recognize that discrimination, oppression, prejudice, implicit bias, and power and privilege influence communities. UHCS strives to provide high quality physical and mental health care, outreach, and consultation. Because of this mission, we hold a strong commitment to the diverse UW-Whitewater community and the promotion of equity and justice. We recognize and acknowledge that discrimination, prejudice, and inequitable systems of power and privilege impact the wellbeing of our campus community.

University Health & Counseling Services is available Monday – Friday from 8:00 a.m. - 4:30 p.m. Please call 262-472-1305 to schedule a Counseling appointment and 262-472-1300 to schedule a Health appointment.

With Respect,
The University Health & Counseling Staff
