

# Save for Your Future Retirement

with the

**UW 403(b) Supplemental Retirement Program (SRP)**

## SRP Basics Workshop

Presented by Professor Rashiqa Kamal

**Faculty, Staff, and Students are Invited!**

**Wednesday, April 17, 2024**

**10 am - 11 am**

**University Center 261**

Please remember, saving *something* is better than saving *nothing*. Plan to Save in 2024!

This workshop is especially intended for new investors and for those not yet in the UW 403(b) SRP, but those with established accounts will find it beneficial as well. The workshop will help you understand the basics of investing and what to look for when you choose your investments

A Roth 403(b) option is also available. In a Roth 403(b) account contributions are included in taxable income in the year they are made, but the account balance and earnings are not taxed when distributed (subject to certain restrictions). Participants can contribute through payroll deduction using the Roth 403(b) option to the same kinds of investments that are in our pre-tax 403(b) Plan.

For more information, contact Professor Rashiqa Kamal at [kamalr@uww.edu](mailto:kamalr@uww.edu)

There will be time for questions. No need to register.

We look forward to seeing you there!
